

PELCO AND QOGNIFY INTEGRATION

CUSTOMER SUCCESS THROUGH STRONG TECHNOLOGY PARTNERSHIPS

Qognify, part of Hexagon, provides physical security and enterprise incident management solutions. Its integration with Pelco cameras enables customers to use Qognify's advanced video solution for corporate and enterprise projects.

A variety of Pelco cameras are now listed as [supported devices](#) through Qognify's Video Management software. This allows Qognify VMS customers to have the flexibility to plan and implement their projects with our best-in-class Pelco cameras with embedded smart analytics. The integration also allows users to seamlessly utilize the unique hardware features of each camera line. Pelco cameras provide a wide range of options to meet users' needs, including enhanced imaging quality and rugged designs built for the harshest environments.

Over 140 Pelco camera variants have been certified with Qognify VMS software, including:

- Sarix Pro 4
- Sarix Pro 3
- Sarix Enhanced 3
- Many legacy fixed and PTZ Pelco camera devices
- Esprit Enhanced
- Sarix Value
- Optera

Pelco is committed to high-quality and comprehensive implementation of ONVIF standards across our camera portfolio. We continue to maintain a strong partnership with ONVIF to ensure that the latest standards are applied throughout our technologies. With Pelco's ONVIF implementation, Qognify is able to integrate our cameras through their Smart Driver approach. The Smart Driver contains a driver for ONVIF profile S/G/T, which allows the use of new cameras out of the box without the need to download and install additional driver packages. As a result, customers gain the flexibility of taking advantage of the latest cameras and capabilities right out of the box without spending time and money waiting for the VMS manufacturer to provide updated camera drivers.

ABOUT QOGNIFY

Qognify's comprehensive portfolio of video management software and enterprise incident management solutions serves thousands of customers around the world in manufacturing, transportation, retail, education, finance, logistics, corrections, critical infrastructure and government.
